

pureWash Pro X2 transforms the water going into your washing machine by infusing “activated oxygen”. This purification process cleans your laundry without the need for hot water or detergents, but still reduces odors caused by bacteria, mold, and mildew, leaving your laundry fresh and fluffy. pureWash Pro X2 brings proven large scale technology, previously used by hospitals and hotels, into your home in a compact and easily installed system.

Simply connect it to your washing machine once and pureWash automatically reacts to your wash cycle's operation. Regular use will save energy and money while keeping your laundry fresh and clean.

## Benefits of pureWash Pro X2

 Saves Money with Every Wash

 Use Little to No Detergent

 Reduces Odors Caused by Bacteria, Mold & Mildew

 Cleans with Cold Water

 Hospital Proven Process

 Reduces Chemical Residue on Your Clothes
