IX WATER

ECO FILTRATION

INTRODUCING **IX VEND**
NEXT LEVEL
VENDING

Reliable water for high-volume vending. The IX Vend delivers treated water that produces better-tasting drinks and dependable scale protection.

INTRODUCING **IX VEND**

Unlock the full potential of your equipment with water treatment that has been engineered for maximum flavour, aroma and dependable scale protection. Prolong the life of your equipment whilst serving hot beverages with water that has been optimised for better taste.

SPEC SHEET

MODEL	CAPACITY*	DIMENSIONS (mm)
Small	40,634 Litres	317 High X 167 Dia
Medium	88,246 Litres	406 High X 167 Dia
Large	154,430 Litres	580 High X 167 Dia

* This capacity is with bypass settings 0.

- Working pressure 1.5 - 6 Bar**
- Water inlet temperature 4 - 30°C
- Only connect to a cold Food-Safe water supply
- Flowrate - 4 litres per minute

** A pressure-reducing valve is recommended if the working pressure is greater than 3.5 bar.

THE IX HEAD

The bypass on the iX Head when attached to the iX Vend filter, must be set to 0 to ensure no hard water is dialled back into the water supply.

Features a 5-stage filtration process that includes: Prefiltration, Silver Activated Carbon, sediment reduction, Media specific water treatment, Fine filtration.

Operates in a vertical or horizontal position

Head connections inlet / outlet
3/8th push-fit

Easy and quick change of the refill

The iX Head has a built in easy to use flush valve and quick to change variable bypass.

WE'RE REGENERATING THE MANGROVES

NATURE'S **CARBON** FILTER

The mangroves are vital to tropical ecosystems and serve as nature's coastal carbon sinks. Between the land and ocean, they protect beaches, enrich marine life and capture 5-10 times more carbon than terrestrial forests. We're helping rebuild mangroves throughout Asia and Latin America with our commitment with Tree App.

ONE TREE **PLANTED** FOR EVERY FILTER RECYCLED

Support the mission and help the planet. For each filter you purchase, we're planting a tree with One Tree Planted – making a difference, one filter at a time.

WE'RE **FIXING** WATER

OUR INDUSTRY LEADING UK RECYCLING PROGRAMME

We are now able to recycle and re-purpose ALL types of plastic and aluminium water filters using our newly operational recycling facility in the United Kingdom.

RECYCLING & REGENERATION

We've optimised every component and stage of the water filtration process. An unprecedented 98% of an IX filter can be re-used or recycled – including the resins which are infinitely rechargeable.

We have created robust processes to get used water filters, including other manufacturer's filters, back to us for reprocessing and to give the plastic and resin a new life as a brand new product
